What stream have you made it through? I know I sent you through Smith before but might have made some tweaks to stuff so I'll just send you from where you are. If you've made it through Smith, no worries.

Hi! I hope you had a good weekend! I'll try to get my comments to you today.

From: Lisa Kusnierz [mailto:Kusnierz.Lisa@epamail.epa.gov]

Subject: lower gallatin

The stream I was borderline about was Reese Creek. I decided to go for it though b/c a couple habitat parameters fell short, I'm doing a TMDL for Smith Creek (which will include an allocation to Reese), and there's no bug data.

Thanks for reviewing! I'll send the 2nd part when I finish it.
